

1. Rex

Engulfed in frost
I sailed our dreams
Gloomy inner landscapes come to life

I am the wolf in the darkest scene
Phantasms sweep my role
I am Lucifer, I bring you light and pride

Three steps for the white
A journey for the black
No flags for the tens lines
(but) I'll shoot you full of signs

In other dimensions
My visions grew black wings

2. Pure Demoniac Blessing

The dragon rises before me
I'll fornicate the beast
Come to me
Possess me as I burn
Into your painted realms

Come raging chaos
Rule power from your soul
Pure demoniac blessing
As I kill myself in woe
(As I kill myself in woe)

As souls coloured the face of the moon
Shall suffer the eclipse

You must know that I can no longer see
The difference of dream and reality

For the walls have been sieged
And banished by our Dark Satanic Blasphemy

3. (The) Grimness Of Which Shepherds Mourn

I stand alone
In a valley filled with starlight
My eyes suffer
From eternal sparks

So shut the lids and dream so I can see
The trident clearer than ever now

And in my darkest fantasy
And as I reach for Hell
In my darkest fantasy
I reach for Hell
And I am Free...

4. Sadoomasochistic Rites

Hearses are raining
From the open sky
Megolomania
Reigns supreme

Chilled in horror - Christian Death

They leaned too long to stand a fall

I bend to receive
The lust and pain
Beat me Jesus
And we will win

5. As Desertshadows

I must embrace visual hell to satisfy us
Rape the Whores in Blasphemy
I am Him while I feast upon your flesh

Glance into my eyes
And see the darkest shadows dancing

Playing in the desert of my life
Burning, - and my soul is descending

Glance into my eyes
And see the darkest shadows dancing
Into the night

6. In His Lovely Kingdom

Lover of all
Face the Apocolypse
You fade away under the black rain
And flowers remain

Flowers to step on
Flowers to burn

Am I ready for the god below
Red flesh to penetrate my skin
To steel my soul away
To the grave I seek
Until I'm feeling weak

But there's fire
In my heart, in my eyes
In his body, in his eyes
And in his lovely kingdom

7. Black Daemon

Daimon
It's been years
Daimon
Since I discovered the other world
The other world
Where shadows draped to our feet

Evil
Possess me

I pretend
But daemons
I can only
Dream of

In coldness and darkness
I know I'm possessed

Bodies
Are what we all see
Dead or alive

We're alive
But our truth is dead

Invisible
For all to see

Demon
When it's cold and dark
Possess me

More and more

8. Toward(s) The Thornfields

Now
Now that I'm ??? you

My black wings have gone

But remember
When you smile
You forget the pain inside

The feeling you all hate
I'm there to bring it
In another world

Have you ever been true
That's what you know I have

You feel I hurt
You feel that I have

Take me to the thornfields

9. (Birth Of Evil) Virgin Sin

Today as ???

Come on

??? to take

I gave birth
To my astral

To ???
Upon this earth

???

Don't you ever walk my way
I ??? walk alone

10. Green Cave Float

I am the fountainstorm from a black heart
I am the desert of redemption
I soar on dead wings of sin
I am pre-nun (with a) cracked virginity

The arrows of moderation failed to hit me
But the ones who came with fear and hate
Kissed me deep long and hard
And those who spelled DEATH are so ready

Paler skin than the sheets of jewel fairytales
Is sown upon every soul and body of life
And I wonder who sees desolation
Through my eyes, holds the vision
And makes "love" to it
