

## **1. All My Heroes Have Failed Me**

Up and out  
I never regretted a thing  
Take a glance from the inside  
It isn't what you think  
This is it  
This is everything I have  
So between you and me  
Give up all fucking hope  
I've got the answer, so save your fucking explanation  
This is the last time I'll suffer through your exploitation  
Harvest truth and save it for your revelation  
I've lost all trust and I've finally had the realization  
All my heroes have failed me  
And all your heroes will fail you  
Give up hope  
I don't care and I'm through hearing you justify  
You've given up and I know you've fucking died inside  
We've burned it all and everything it signifies  
I've reached my breaking point and I finally realize  
All my heroes have failed me  
And all your heroes will fail you  
Give up hope  
I'm sick of trying and I'll never put my trust in you  
No more heroes no promise of something new  
It's over now  
There's no more damage you can do  
You're dead to me, because me and you are finally through  
All my heroes have failed me and I have given up hope  
This is the last time I ever place my trust in someone else  
And I have given up all fucking hope

## **2. Womb Portals**

Cold hands feed us death  
While war breeds in every breath  
It seems like we have nothing left and our ways are set  
The sacrifices we endure  
Perfection we pursue  
Darkness, nothing pouring through  
Like Harkonen vision  
All will fall before us and will be made to suffer  
Born Scream Confusion Pain Insanity  
Reborn into this fleshen form  
Forced through the portal of the womb  
Fear is the mind killer  
I'll face my fear and allow it to pass through me  
Cold hands feed us death  
While war breeds in every breath  
It seems like we have nothing left and our ways are set  
All will fall before us and all will be made to suffer  
A vision of light  
A survivor of death  
Death Scream Confusion Pain Insanity  
Return to the source where it all began  
I can't make any sense of it  
Not in the way you demand  
Fear is the mind killer  
I'll face my fear and allow it to pass through me  
It is by will alone  
I set my mind in motion  
A vision of light  
A survivor of death  
From far away not everything is perfect

## **3. Smoke**

Oh, Another face joins the crowd  
It's time to impress; time to prove yourself  
You don't realize that in a year's time you'll be over this  
Moved on to the next trend  
Moved on to the next catchy melody  
Moved on to the next trend  
Here's your next catchy melody  
So say what you will  
Do what you feel you must  
Your words just fuel my rage  
And fill my heart with disgust  
I know what really matters

I know who will be there  
The rest of you could wither away and not a piece of me would care  
Tomorrow none of you will mean a goddamn thing  
You're spread so thin  
We see right through your display  
A procession of smoke and mirrors  
Tomorrow none of you will mean a goddamn thing to me  
In time everything grows stale and old  
I'll hold on to what I have and never let go  
Tomorrow none of you will mean a goddamn thing

## **6. Servant Of Sorrow**

The hands of time are frozen in this moment  
I can't spit it out for fear  
Has overtaken my voice  
Waiting seems impossible  
Different stages  
Waiting seems impossible  
Different stages  
Waiting seems predictable  
Different ideas  
It is I that will have to live with this  
I, Betrayer of Hearts  
I, Servant of Sorrow  
Hear I am the worthless king  
Join my legions of heartless  
Here I am the worthless king  
Join my legions of heartless  
Here I am the worthless king  
Join my legions of useless  
Wandering the great depths  
Searching the canyons for truth  
Discovering every darkness  
Bringing its ugliness into new light  
It's come down to this  
All or nothing  
Our Choice  
Decide  
Decide our suffering  
It is I that will have to live with this  
I, Betrayer of Hearts  
I, Servant of Sorrow

## **7. Chum Fiesta**

Crashing Flowing Swirling  
Right from the start  
Gnashing Ripping Bleeding  
Quickly tears my flesh apart  
Through my cloudy vision  
Billows of crimson  
Signal the feast  
One last bite, Coming from all sides  
Confusion, pain, mortality  
Reminds  
That I cannot live  
My last hope believe they let me go  
Now which way is home?  
Now which way is home?  
OH SHIT!!!  
Here they come again  
OH SHIT!!!  
Here they come again  
Quickly tears my flesh apart  
Here they come again  
CHUM! CHUM! CHUM! CHUM! CHUM! CHUM! CHUM! CHUM!  
My last hope for survival  
My last attempt at freedom  
My last pointless struggle  
Sts me free  
They have the right to reclaim whats rightfully theirs  
CHUM FIESTA!!!  
Quickly tear my flesh apart

Crashing Flowing Swirling  
Right from the start  
Gnashing Ripping Bleeding  
Quickly tear my flesh apart  
Crashing Flowing Swirling  
Right from the start  
Gnashing Ripping Bleeding  
Quickly tears my flesh apart  
AAAAAAAAAAAAHHHHHHHHH!  
AAAAAAAAAAAAHHHHHHHHH!  
AAAAAAAAAAAAHHHHHHHHH!  
Quickly tears my flesh apart  
FUCK!

## 8. Guillotine Dream (Slow Drugs)

One step in front of the other  
The clock wasting minutes away  
Slowly counting the hour  
That determines my destiny  
In this place I wait looking at the stares  
Not a kind of face among them and no one cares  
They all think I deserve this and I probably do  
The blade smiles at me for it knows the truth  
I take my place on the throne of  
Martyrs and Sinners  
Martyrs and sinners  
It's falling, fallinf, and slicing through  
Removing me from myself  
For the final time I see now  
That I deserve much, much worse  
I am the serpent's head and I must be severed  
Nothing for me but their cold hard gaze  
My heart welcomes death's warm embrace  
I take my place on the throne of  
Martyrs and Sinners  
Martyrs and Sinners  
Give me no last words  
Give me no last meal  
Just give me sweet, sweet death  
Make my worst fears real  
I've done all I can  
This is out of my hands  
Don't ask me to forgive and I won't ask to live  
No more steps and no more time  
The blade, it falls, and ends this life  
As the faves fade And life... It flashes by  
Fills with lies and hate  
My demise has arrived  
Falling downward in time  
These walls speak of my hell  
His vengeful eyes say to me, "My son, you have served me well."  
I am the serpent's head and I have been severed

## 9. Doomed To Failure

They met in the dark of the night  
For a Final time  
For the great showdown  
Two dreamers deciding which path to take  
One for their future  
One for the present  
"I was standing strong until you showed your face to ruin and ravage  
everything we've planned."  
"Your dream is empty with its promise of self fulfillment. The future holds  
so much more for us."  
One of us will die before this is over  
The sword of vengeance glistens in the moonlight  
Her words fall silent as he makes his attack  
"Now we will find out who truly holds the power."  
"I'm waiting for you to relinquish your hold."  
"There is no room for us, so you must be destroyed."  
"Then I'm afraid this is unavoidable."  
His blade plunges deep  
Cutting down to the core  
And with her last gasp for breath  
All her dreams and aspirations fade  
She pleads for him to see  
For him to see the truth  
And with one final slice she's gone forever  
No more dreams  
No more tears

She's gone  
Bleed for nothing now for no one hears your cries  
He stands there victorious and alone  
Suffering through what he himself has made  
"Without her, there is no point to my fight."  
He sees it all as it slowly begins to fade  
One of us will die before this is over  
He realizes now, without her  
Live loses point  
Without the battle, without their struggle  
Life loses point  
He has no purpose now  
Life loses point  
As everything fades, Everything fades  
Life loses point  
The struggle was keeping us both alive

## 10. Corpse Collector

[Instrumental]

## 11. The Reptile Lord

Frustration building  
Tension rising  
Wasting careles moments  
Now we are out of time  
Frustration building  
Tension rising  
Fuck you  
We're never coming back  
Violence is created and hate is fucking bred  
Your every single breath turns life into death  
Suffering in this prison  
Made of our own design  
Betrayed by the lord with venomous eyes  
Misread, misquoted, and misguided  
I am my own god, yet I've never felt this grace  
My life won't be the same  
And I hope you never see this face  
You were right to go  
Now the world finally knows  
I am the Reptile Lord  
Misread, misquoted, and misguided  
Gears grinding away  
Ripping every piece of my flesh  
It's oh so easy  
No room for regret  
No time for remorse  
I just don't care anymore.

## 12. Death And Rebirth

In our most painful moments  
Lost in the cloak of night  
Burned, broken, tired, hopeless  
No future is in sight  
Where are we even going  
And who among you cares?  
With no real purpose showing  
A cycle of despair  
A never ending threat  
A constant pushing force  
My match is finally met  
Let this thing take its course  
New blood flows in our veins  
Power moves quickly now  
None of us will be the same  
Giving up we won't allow  
Our last sun has set  
As we approach our fate  
With one last option left  
To destroy and recreate  
We are the new generation  
With purpose, conviction, and dedication  
Counting past the final hour  
In Flame we've been reborn  
A pure stronger power  
A new oath we have sworn  
These nights mean too much to just let them go  
Putting on the final touch  
Our true colors show  
We are the new generation

With Purpose, conviction, and dedication  
On the Phoenix Throne  
Death and rebirth  
Nothing as far as the eye can see  
A straight, clear path moving  
Towards our destiny  
And now we rise  
We rise on the wings of flame  
Nothing holding us down  
As we rise on wings of flame  
Momentum pushing forward  
As we rise on wings of flame  
We are fireborn  
As we rise on wings of flame  
We are the Phoenix  
As we rise on wings of flame
