## 1. The Force Within

[Instrumental]

## 2. Shadowplay

Fly upon a brainchild  
With unashamed delight  
Bending over backwards day and night

Our world's collapsing  
Like a house of cards  
A stagy farewell waits without regard

We are hanging in the balance  
Are we beyond and remedy?  
It was taken out of our hands  
And we face a tragedy

[Chorus:]

Why, why are we here  
On wild soil we roam  
And love to call it home  
We are vibrant with life  
The will to survive  
Ways to go astray  
In this shadowplay

Skimming stones on water  
Only yesterday  
Into cosmic dust we now decay  
Kindred souls and spirits  
Bound by energy  
Who can say what is reality?

Do we flog a dead horse?  
Just eternal bliss  
Leaves us back to hope for  
The former times we miss

We are driven by emotion  
And pray the bond won't brake  
So strong is our devotion  
Our being is opaque

[Chorus]

I have seen the cascade  
The souls between light and shade  
Not a drop in the ocean  
Forever we  
The spirit of infinity

[Chorus]

## 3. Paramount

When voices trail away  
Into silence gone  
Impassioned I may stray

Boundless and pristine  
The miracle unseen  
The windows of the soul caught in between

[Pre-Chorus:]

Wonder  
Home free I am  
Come closer to my heartbeat  
And kiss my tears away  
Not once in a blue moon

[Chorus:]

Don't turn away  
Beyond my dream  
You're paramount to anything  
You have the midas touch to save infinity  
Come rain or shine  
Forever mine  
You're paramount in your design  
A hope of stardust left in time

My passions running high  
Going round the bend  
Mirages mystify

One time we gave our vow  
The time to keep is now  
So say goodbye to "holier-than-thou"

[Pre-Chorus]

[Chorus]

One hope  
One fate  
One life  
Await

[Chorus]

I live and I breathe you  
So come to allure me by and by  
I feel and I follow you  
Cause you don't leave me highland dry

## 4. Undying Devotion

The darkest hour's just before the dawn  
The bottom dropped out of my world  
My mind's reeling caught in no man's land  
Break this deadlock for the life of me right to the end

[Pre-Chorus:]

Wake me, take me  
Come ease my pain  
Take a stroll down memory lane  
Hope for those who remain

[Chorus:]

Undying where we dare  
A diamond solitaire  
Be and end of all  
It is the clarion call  
Devoting all  
So carry the day

Consumed by passion, words cannot convey  
And I'll be waiting in the wings  
There is more to this than meets the eye  
I live and breathe to brave the storm and kiss the night goodbye

[Pre-Chorus]

[Chorus]

[2nd Chorus:]

Jewel in the crown  
Can't keep a good man down  
The force chasing the game  
Us restless that we became  
A winding lane  
For those who break new ground

[Chorus:]

Undying where we dare  
A diamond solitaire (solitaire)  
Be and end of all (end of all)  
It is the clarion call  
Devoting all  
So carry the day  
Jewel in the crown  
Can't keep a good man down (good man down)  
The force chasing the game (chase the game)  
Us restless that we became  
A winding lane  
For those who break new ground  
Undying where we dare (undying where we dare)  
A diamond solitaire (a diamond solitaire)  
Be and end of all (be and end of all)  
It is the clarion call (clarion call)  
Undying devotion

## 5. Adamantine

As the lights went slowly  
The line of vision broke  
In the face of reason it flies  
Right when I awoke

You spoke beneath a whisper  
And angry clouds arose  
You began to brood at night  
And damned how fate chose

We still endeavor for the precious stone  
For accolade until we are alone  
A cornucopia of flattery  
We only see what we want to see

[Chorus:]

Can't break my will  
(It is adamantine)  
Can't bar my way  
I am ready for fray  
Time  
(I am adamantine)  
And reverie  
(And there isn't a line)  
Still it is life's melody

You can tilt at windmills  
You get a fire alight  
Pass with flying colours  
You are taking it with pride

Beyond the dreams of avarice  
You master your own way  
Never bend before the wind  
No way to lead you astray

And we still wanna go the extra mile  
On cobbled streets of artificial smile  
A cornucopia of memory  
Fills our hopeless vacancy

[Chorus]

Our workers of fate  
Are like the dreams we create on and on  
Cause life is a wide open space  
And then some, so much to embrace  
A cornucopia of mystery  
One more page in our diary

[Chorus]

[Chorus:]

My will  
(So adamantine)  
My way  
I am ready for fray  
Time  
(I am adamantine)  
And reverie  
(And there isn't a line)  
Still it is life's melody

## 6. Whale Rider

In a time  
When the land was filled with void  
And we wished to be loved  
To be redeemed  
By someone who will lead our way

Why  
Is there still the sadness in your eyes  
When the answer's at hand  
I am the chosen one

And I bear this name with pride  
Feel the power in me  
Take the legacy and call them  
When all hope will fail  
I'm not unheard it is my trail

(I'm) not a prophet but I know  
We will all go our way  
Words can't convey  
In waters the deep is still and sound  
Where I found, where I am bound

I will steer you back to life  
I can feel your pounding heartbeat closely  
I am one  
I will follow you into the deep  
As a young bird has to learn to fly

Whale rider  
Whale rider  
Whale rider

## 7. Remember Me

Hey you  
You were second to none  
But time has stolen your crown

Can you  
Remember panning for gold  
(but) your star has waned into sundown

The writing's on the wall  
You're by the way to fall  
So take your final curtain call

[chorus:]

Until kingdom come remember me  
Take me back into the sheen  
A bag of dreams one final reverie  
The seamy side of life unseen

See the meteor rise  
Every step all of the way  
You got a fire alight cause you're came to stay

You've got oceans of time  
A meeting of minds at all  
You wished for the moon, could not hear the call

You wither on the vine  
All along the line  
Elation from a far off time

Seek and you'll find  
The answers behind  
Will you remember me?

[chorus x2]

## 8. Fallen From Grace

What if I was born to love  
Is hate another part of  
Like a sin in flesh and blood I feel

When Adam's built to love his god  
Then why can't I be with you  
Blood and electricity what's real, oh what's real

Where are you now?  
Caught in a memory that lives on and on  
We set the world on fire

[Chorus:]

Fallen from grace  
Where am I, forlorn in this cold place  
Come away o human child  
Hope springs eternal inside

The best laid schemes of mice and men  
A closely guarded secret  
Dreams to find are lost beyond recall  
(Lost beyond recall)

But I won't bid my hopes farewell  
Am I just a lotus eater?  
(To cross) the great divide to find it all, find it all

Kiss me goodnight

Give me a new lease on life  
Lay my fears to rest  
A new dawn is here

[Chorus]

Ah ah uh uh uh uh  
By the light of the moon  
Time is fading away  
Your life's mortal clay  
Oh where am I now?

[Chorus]

## 9. Place Of Higher Power

The rain abates  
A new dawn waits  
Will I be back on dryland?  
Unconfined  
Our restless mind  
It's a jungle out there

Those barren years  
And vast frontiers  
We are drifting worlds apart  
The apron stage  
A golden cage  
But beauty's only skin deep

[Pre-Chorus 1:]  
It's just a world of make believe  
But what a tangled web we weave  
We dream on consecrated ground  
(We're spellbound)

[Chorus 1:]  
Framed into this world  
All along the line  
Take me outside space and time  
Working like a charm  
Burning down the harm  
In a place of higher power

I hear the bell  
Tolls the knell  
Can we cross a boundary  
Shining streams  
Recurring dreams  
Take me out of this world

I'm tired and drawn  
Goes on and on  
Inquire into mine own heart  
The inner twist  
Can I resist  
In a lucid moment

[Pre-Chorus 2:]  
I'm chasing horses in midstream  
I follow my recurring dream  
And leave the nadir, meet my fate  
(Can you await)

[Chorus 1]

[Chorus 2:]  
Ardour and despair  
On a wing and prayer  
A panacea in my veins  
Lode star on my sky  
Shine and purify  
In a place of higher power

[Pre-Chorus 1]

[Chorus 1]

[Chorus 2]

## 10. MyEarthDream Suite (For Guitar And Orchestra)

[Instrumental]

## 11. MyEarthDream

[I. The Road Ahead]

We, to tell dead straight  
We harbour an illusion  
Estranged, all got out of hand  
There's method in our madness  
We crave for greenfield land

[Pre-Chorus:]  
Plaintive cries  
Our demise  
Evil hour

No dim glow just pain  
We're leaving behind a stain  
We're casting stones in the glass house of our promised land  
Neverland  
(Never, Neverland)

[Chorus 1:]  
Haunting beauty, second to none  
Creator of life, under the sun

[Chorus 2:]  
Myearthdream, oasis of light  
(The) road ahead, powers unite  
Myearthdream, oasis of prime  
Karma cleansed, turn on a dime

What if, the twain shall meet again  
As in days of old  
Blind alley, an aimless walk  
We bite the hands that feed us  
But who cares when money talks

[Pre-Chorus]

When time is of the essence here  
We learnt to live in abject fear  
We take it for granted and claim the moral high ground  
And compound

[Chorus 1]

[Chorus 2]

[II. Pristine]

[III. Agent of Change]

Our world restored to former glory  
Writing a new story  
Before the sands of time running out for us

[IV. The Uninvited Guest]

The green lung bleeds, this path misleads  
We came and smiled, grinded the faces of the wild

What goes around will come around  
We reap the bitter harvest here

And we threw all caution to the winds  
(We're) covering a multitude of sins

Further afield, is our fate sealed?  
Agent of change  
Where are you, come to rearrange  
Return to grace, a newborn place  
It is never to late to mend

Fools rush in where angels dare to tread  
Truth will out, see to where our hopeless way has lead

[V. The Last Card]

Can you tell me why?  
We didn't hear the call  
The bigger we are, the harder we fall

Smoke and mirrors rule  
An irony of fate  
We fight at every turn, destroy what we create

[Pre-Chorus:]

Plaintive cries  
Our demise  
Evil hour

Human, hopelessly  
A long way to learn  
Some little crumbs of sense, full steam astern

An enlightened age  
Should create a force  
To put the world to rights, let nature take its course

[Chorus:]

Myearthdream, oasis of light  
The road ahead, powers unite  
Myearthdream, oasis of prime  
Karma cleansed, turn on a dime

The last card to play  
Myearthdream, a world in shine  
Back to the grand design

[VI. Slumbers]

It is five to noon, and I still wish for the moon  
Our restless pace has slowed  
We have come to the end of the road  
At the crossroads where we are  
Hello, this is our last card  
Let the slumbers never end  
Believe for a moment in time  
No more grey and dreary deeds  
Just a sliver of light  
My earth dream
