1. Heavy Metal Is My Way

Heavy Metal! Just my way,
Heavy Metal! Just my devil

Fighting, bursting out, Holy the rules, born to play
metal! And till I die

I win the brilliant victories & the golden glories
I keep on running to the immortal future, now
Forever! and never ending in the hell,
Heavy Metal is my way!

Heavy Metal! Roaring thunder,
Heavy Metal, like a warhead

Screaming, shouting out. Loud till I die, denim & leather, Heavy Metal

I win the brilliant victories & the golden glories
I keep on running to the immortal future, now
Forever! and never ending in the hell,
Heavy Metal is my way!

2. Heavy Metal Drill

Screaming my machine in the underground, seeking for sacrifice
Stronger than evil, breaking through the destiny, the edge of the insanity
Nobody can control the wilder of mine, crazy smell of death

Revolving my lover breaking the diamond, faster than speed of light
In the name of metal, steel noise of hell
Bloody judgment day has come to you

Sticking my lethal soul into your head, heavy metal drill
The noise of my belief into your head, heavy metal drill

Screaming my machine in the dead of the night, seeking for new fuckin'
heads

Stronger than evil, profane the destiny, the edge of the silver one
Nobody can control the wilder of mine, vibration of death
Blackness from blackness, anger from anger, bringing blood to blood

Revolving my lover breaking the diamond, faster than speed of light
In the name of metal, steel noise of hell
Bloody judgment day has come to you

Sticking my lethal soul into your head, heavy metal drill
The noise of my belief into your head, heavy metal drill

So no escape, son no mercy, watch your death
No nightmare, no illusion, the blood begins to flow like the brazing fire

Sticking my lethal soul into your head, heavy metal drill
The noise of my belief into your head, heavy metal drill
Sticking my lethal soul into your head, heavy metal drill
The noise of my belief into your head, heavy metal drill

4. Wolf Man

Shining in the dark night, red full moonlight
Nobody on this way, concrete jungle street
Beginning to run just now, for his hungry blood

To darkness from darkness, moving for tasty meat of man
Oh wolf man, oh-,
Eating away flesh of men going on living on the beat way

Offered this body to demon, under the sign of the moon
The fangs without mercy, unholy uncanny eyes
Beginning howl just now, changing body into the evil
beast

To city from city, blowing the smell of blood
Oh- wolf man Oh-,
Sacrificing flesh of men going on living on the beat way

Oh- wolf man Oh-,
Eating away flesh of men waiting for the night to fall

5. Bloody Countess

She is waiting on unholy light, and calls from castle of gore
Baptized with blood, the evil of her nature, collects in her eyes
New blood will flow before, the old has dried again
She is cruel art is holy deeds, examined piece by piece

Bloody countess, bride of the demon, oh-

Welcoming the new virgins, to live on envy life
The countess dressed in black, for hiding the evil mind
Keeping myself alive by bathing, you mortals blood
Still feeling the taste of blood, it makes me so beauty life

Bloody countess, bride of the demon, oh-
Oh- midnight, oh- witching night, she changes into a
delight

6. Soul Of Warrior

In my memories, you're alive
Fighting bravely, and left to die
Surely you must have seen, betrayer and hell
Not getting victory, not into glory ride, warriors

In my memories, you! burning on
Soldiers of battle, so it's a heavy road
Fighting for freedom, dying for freedom Winner & loser, rest in peace,
warriors

Gone are the days when souls shone
I saw the warriors fighting through all my dreams
We could hear any more? Let's dedicate to... Soul of warriors

Gone are the days when souls shone
I knew the warriors fighting through all my dreams
We could hear any more? Let's dedicate to... Soul of
warriors... see...

Like a shooting star, and fade away
Old soldiers never die? They only fade away?
But I never forget, soul of warriors
I'll succeed forever you're never ghosts

7. Headbanging

Denim & leather jackets going out to that city also
tonight
They walk with hair of metal law going to the mad house

[Chorus:]
Run after overflowing heavy speed, into the hell
illusions
You've got the insane actions of heads, destroy the wall
of sounds
Oh-, Headbanging! Oh- live tonight,
Headbanging! Neck breaking tonight,

Headbanging! Explode you all right

Denim & leather jackets metal up to the city also
tonight
They risk self with soul of rivets going to the mad
church

[Chorus]

Shout! Cry! Bark! Howl! Roar! Heavy metal men of the
night
Go mad! Crazy! Insanity! Burn you out without end

8. Metalucifer

9. Iron 'n' Steel 'n' Metal

Great thunder & burning rain, now blood & metal meet down
Riding on iron horses for the sky, pure made of golden immortality
Kiss our swords of steel of king, united power of 3
forces
Called back forgotten storm winds, calls back blessed
battle fires again

[Pre-Chorus:]

Locked the black spell has been broken, now we're back from the dead of
...
proudly we're returned to this ground of fire
With swords drawn held high..., all sworn the eternal vow of...,
When we're reborn, you know that you must pay

(Steel the might, metal the brave, iron the great / oh-)

[Chorus:]

Iron and steel and metal, the time has come, force to fight (for us to fight)
Iron and steel and metal, kill for kingdom to come (our fight will never end)

Raise your hands and fists high, going to ride away at full speed
In blood I take my pure payment, the golden sword of the vengeance
Sign our souls with axes of the rage, united power of 3 forces
Called back forgotten storm thunders, called back
blessed battle hymns again

[Pre-Chorus]

[Chorus]

we hold up our hammer high, swing our hammer to this ground land,
we've sworn the oath in the darkness, in the coldest
winter night,
when the wings of fury blow through, our meeting with fate is now,
wings of the battle flying is now, we will never die
together in the end ...
