1. Black Metal

You see your face in that magazine
You wanna be in the spotlight
Each day goes by you're living a dream
Countless hours spent in front of the mirror
You've really made it clear

[CHORUS:]

Long hair parted between the eyes
Silk pants wrapped tight around your thighs
Each day goes by you're living a dream

You try so hard, say what can I do
Or how can I make it
Why not admit it's a part of a dream
Countless hours spent in front of the mirror
You've really made it clear

[CHORUS:]

Long hair parted between the eyes
Silk pants wrapped tight around your thighs
Each day goes by you're living a dream

[BRIDGE:]

Why do you want to follow the leader
You should set the example
You gotta want to be like Jesus the messiah
He's a jealous God
He wants you to serve Him with your life
Oh He can't take it anymore, more, more

Long hair parted between the eyes
Silk pants wrapped tight around your thighs
Each day goes by you're living a dream
You see your face in that magazine
You wanna be in the spotlight
Long hair parted between the eyes
Silk pants wrapped tight around your thighs
Each day goes by you're living a dream
Don't try so hard to be like everyone else.

2. Mad, Mad World

One nation under God but where are we going?
We try to make the best of our lives not really knowing
That our own righteousness is but filthy rags
In the eyes of the Holy One
It's a state of the heart not the flag

[CHORUS:]

It's a mad mad world we're living in
Making up our own rules
We make excuses for sin
It's a mad mad world we're living in

We tell ourselves that we're OK
It's what we do not how we play
That earns us our golden crown
That's the thing we all love to say

But our own righteousness is but filthy rags
In the eyes of the Holy One
It's a state of the heart not the flag

3. Stay Away From Evil

The evil one is the great deceiver
He'll steal your soul when you turn around
Ohh he's just doing evil
Any chance he can get you down
He'll rip your flesh tear your heart right out

[CHORUS:]

Ohh he's just doing evil
Well I said
Ohh he's just doing evil

Well if you're looking for a friend
Don't ever look in his direction
If you need someone to lift you up

He's gonna tell you that you're out of luck

[CHORUS]

But there is One who can lift you up
Take you away from this life of sin
He's the One He's the God above
He wants to take you into His kingdom

Ohh stay away from evil
Well I said
Ohh stay away from evil
Ohh stay away from evil
Never turn around
Ohh stay away from evil

4. He Died

He died for you and I on that day
As He hangs on the cross for you and I
He said "Father forgive them for they know not what they do"

It's time you realize what he has done for you
Just open up your eyes and face the truth
Why don't you realize what God has done for you
He sent His only Son to die for you

And He died for you and I Oh Jesus
And He died for you and I Oh Jesus

And when they hung Him on the cross
His face they did not recognize
And when they saw Him hanging there
Oh the pain

And when they hung Him on the cross
His face they did not recognize
And when they saw Him hanging there
Oh the pain

And He lives for you and I
Oh Jesus

5. Children Of The Light

We are the ones that will take the gospel to all nations
No we will not deny our King
We do what's right and we do it with no sadness
'Cause we enjoy the life we live

[CHORUS:]

With righteousness of the Lamb
We do what is good for the benefit of others
We are children of the light
And we do what is right
We are children of the light
We'll fight the good fight

We won't take part in unfruitful deeds of darkness
We expose them to the light
We do what's right and we do it with no sadness
For our Lord Jesus Christ we'll fight

With righteousness of the Lamb
We do what is good for the benefit of others
We are children of the light
And we do what is right
We are children of the light
We'll fight the good fight

6. Rebellion

Well you're goin' downtown see the city lights
You're lookin' for a high that you just can't find
Well you're falling from God and it's such a shame
You know satan is the one that you gotta blame

[CHORUS:]

But there's an answer in your heart
You know the truth now play your part
Yes there's an answer and it's waiting for you
Turn back to Jesus you know what to do
Give it up!

Your mind of rage, rebellion
Your mind of rage, rebellion

But there's an answer in your heart
You know the truth now play your part
Yes there's an answer and it's waiting for you
Turn back to Jesus you know what to do
Give it up!
Your mind of rage, rebellion
Your mind of rage, rebellion

Well you're goin' downtown see the city lights
You're lookin' for a high that you just can't find
Well you're falling from God and it's such a shame
You know satan is the one that you gotta blame

But there's an answer in your heart
You know the truth now play your part
Yes there's an answer and it's waiting for you
Turn back to Jesus you know what to do
Give it up!
Your mind of rage, rebellion
Your mind of rage, rebellion

7. Day Of The Lord

No more evil no more pain
From this day forth satan you have nothing to gain

You've led so many astray with you're dectieful lies
And now it's time that you pay
There'll be no more compromise

Listen to the angels sing praises
As Jesus throws satan back into abyss

You've led so many astray with you're dectieful lies
And now it's time that you pay
There'll be no more compromise
On that day they will call on His name

[BRIDGE:]
On that day oh Lord in the sky
Praise your name Lift Him up so high
On that day

You've led so many astray with you're dectieful lies
And now it's time that you pay
The groom has come for His bride
There'll be no more compromise
The groom has come for His bride

8. The Heaven's Are Calling

[INTRO]
Behold Jesus said that the road that leads to destruction is broad
And the gate to eternal life is narrow
And satan seeks to destroy this world
And many do follow him mocking and scorning the name of Jesus
But it is written Vengeance is mine thus sayeth the Lord of hosts
As the voices of the heavens are calling

Our God is calling for the time He comes is near
When He will rule throughout the land
Then the confusion in your head will soon be clear
As the voices of the heavens are calling

Ohh the heavens are calling
Ohh so give glory to the King

Everyone shall see Him open up the clouds
Even those who pierced His name
Then all the people of the earth shall mourn
Because they'll see that He is the One

Ohh the heavens are calling
Ohh so give glory to the King

Won't you join us all you people
Behold He's coming from above
Father's wrath upon His hands
All the kings shall bow and all authority shall fall
For it is said that your worldly possessions shall fade away
But in His kingdom what you'll have is here to stay

See the lights shine on the shadows of the world
Seven scrolls of wrath are poured upon this land forevermore

Our God is calling for the time He comes is near
When He will rule throughout the land
Then all the people of the earth shall mourn
Because they'll see that He is the One

Ohh the heavens are calling
Ohh so give glory to the King

9. Famine

See the tears as they flow down their face
From the hunger that hit the human race
Can't understand why their lives must be this way
We can help them along

Without a drop of strength they force down the tears
Then again what have they done that is so wrong
We can make a difference Just help them along, along
To have to live in a place without a song
We can make a difference Just help them along, along

[CHORUS:]
We can help them along
With a little love from God
They can make it all the way

Without a drop of strength they force down the tears
Then again what have they done that is so wrong
We can make a difference Just help them along, along
To have to live in a place without a song
We can make a difference Just help them along, along

We can help them along
With a little love from God
They can make it all the way

10. Master Of Lies

Well I'm gonna tell ya a little story
About a man named Lucifer
He is the master of deception
And he wants to see you burn
He's got the power in him to make the evilness to come out
And I tell you this my friend

[CHORUS:]
Master of lies
Master of lies
Lies

That evil man won't rest until he's done his evil deed for the day
He'll take away your pride then he laughs as he walks away
He's got you thinking that everything that you do is OK and right
The choice is yours my friend beware

Master of lies
Master of lies
Lies

Now just remember what I told you
About this man and what he does
The choice is yours my friend

Master of lies
Master of lies
Lies

11. Sword Of Victory

Well I seem to find that the enemy attacks
At a time when you least expect it
So you better prepare for the day will come
That your name will be elected
There'll be lots of pain and everything to gain
But dying is the only way out

[CHORUS:]
That we all will walk in victory
With a sword in our right hand

Where will you be when the going gets tough
Will you stand and fight like a man

Will you follow through when the One from above says
Here's my battle plan

I will give you the strength you need
And the courage to stand alone
If you fight for me there'll be victory
And a crown when you get home

And we all will walk in victory
With a sword in our right hand
We will stand for all the world to see
That the truth has set us free

And we all will walk in victory
With a sword in our right hand
We will stand for all the world to see
That the truth has set us free

Where will you be when the going gets tough
Will you stand and fight like a man
Will you follow through when the One from above says
Here's my battle plan

I will give you the strength you need
And the courage to stand alone
If you fight for me there'll be victory
And a crown when you get home

And we all will walk in victory
With a sword in our right hand
We will stand for all the world to see
That the truth has set us free
